AND SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND COMPETING
APPLICATIONS

On November 1, 2011, Whitman River Dam, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Snows Mill Pond Hydroelectric Project (Snows Mill Project or project) to be located on the Whitman River, near Fitchburg, Worcester County, Massachusetts. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would utilize the existing Snows Mill Pond Dam and would consist of: (1) a new 42 inch diameter, 1,100 foot long penstock; (2) a powerhouse containing one turbine generator unit with a total installed capacity of 0.25 MW; (3) a 500 foot long, 0.6 kV transmission line and; (4) appurtenant facilities. The estimated annual generation of the Snows Mill Project would be 1,516,000 kilowatt-hours.
